A CARD.

Having suffered severely from exaggerated reports of small pox in our city, I have thought proper, however little it may avail, theing deeply interested in counteracting such a report,) to make the enquiry of Dr. Harall, whose large share of practice entitles him to know, and whose sterling integrity warrants the belief of any statement he may make, and am assured by him that the number of cases his never exceeded thirty-five, and of that number only three deaths have occurred within his knowledge. It may be proper to state, also, that Dr. Haxall was chairman of the committee appointed to ascertain the number of cases of small pox that had occurred in the city.

LAND IN PRINCE EDWARD FOR SALE. I OFFER for sale the valuable Landed Estate jointly owned by Isaac Read, Esq., of Kanawha, and my

owned by Isaac Read, Esq., of Kanawha, and myself.

This Estate lies in the county of Prince Edward, on Buffalo, Fort and Falling Creeks, two and a half miles from Hampden Sydney College, three and a half from Prince Edward Court-house, and eight miles from the town of Farmville. It contains about one thousand acree, of which about one hundred and twenty acres are low grounds of choice quality, and there is an ample quantity of wood and plant land. A large proportion of the high land is rich, and in a high state of improvement, clover and plaster having been extensively used.

On this Estate there is a Grist and Manufacturing Mill, recently repaired, with three run of stones. The water power is ample, and may be doubled, if desired, without much expense. The Mill, since I have owned it, has made as much as three hundred barrels of toil grain in one year. The nearness of this estate to good markets makes it desirable property, and well worth the attention of persons wishing to large profitable lands.

The overseer, living on the premises, will show the land to any person wishing to see it.

LAND. A large portion of this land I cay red with
valuable timber, a part of which is convenient to navigation. On the land is a large BRICK MILL, thee
stories high, the walls of which are remarkably strong
and in fine condition. This Mill, although now out of
repair, might at small expense be put in order, and
made, as it has heretofore been, a large manufacturing
Mill. To the Mill is attached a large brick Bake house.
The Mill, although down at present, has all the milling
privileges preserved. The houses a e-sufficiently extense ve for a large Cotton Factory, and the waiter power
sufficient for any purpose which might be desired.—
Vessels from James River can come up a creek to the
Mill house—the river being less than one mile distint—
making it very convenient for the delivery of core,
wheat, or any other article desired to be manufactured.
Should it be thought best to use steam power in working
any machinery, an abnus ance of usel will be found on
the land. In this case, the bed of the pond might be
converted into a beautiful rich and gred. Citye meadow
of over one handred mires from Richmond.

Persons desiring to invest caultal in a manufactu ing

Mills cut represents in minimum the several food Medals received by Dr. W. Beach, Professor of Surgery and Clinical Medicine, from the Sovereigns of Europe whose names they bear. These medals were presented to the Doctor in consequence of the very high recommendations given of his great and distinguished presented to the Doctor in consequence of the very high recommendations given of his great and distinguished medical work, entitled "The American Practice of Medicine and Family Physician," by their first Physician and Surgeons, and the Medical Faculties in their Universities. It may, therefore, be justly inferred that this work, the product of an American Physician and Surgeon, must be one of very great and peculiar merit, from the fact that it has drawn from nine of the greatest potenties of Europe such goden honors, and from their chief lights in medical science, and their most celebrated Medical Institutions, such unqualified approbation and praise. Similar recommendations have been poured in upon the author from all parts of this country, not only from these who stand pre-eminent in the knowledge of Medicine and Surgery, but also from very many non-professional men and women, heads of families, who have found this vast fund of Pathological and Therapeutical instruction of inestimable advantage, by having been taught in its pages how to avoid and cure all forms of diseases in themselves, their children, and friends—thus economising much time, preventing a vast amount of pain and suffering, loss of health or life—and saving them, in the aggregate, many thousands of dollars. ieaith or life—and saving them, in the aggregate, many thousands of dollars.

This incomparable book "embraces the character, causes, symptoms and treatment of the diseases of men, causes, symptoms and children of all climates," and compreheads the entire range of Hygeine, Medicine, Surgery, Midwifery, Materia Medica and Pharmacy, which are illustrated with nearly two hundred Engravings—nearly one hundred of which are colored engravings of Botanical Plants.

There are no Medicines to be compared with Brach's Alterative and Anti-Bilious Family Physic, for the cure of all diseases resulting from a bad state of the blood, which never fails to purify the system perfectly and permanently of all Mercurial, Scrofilous, Syphilitic and Cancerous Taint—from all Bad Homor, Poisons and Morbid Matter, which produce Eruptions on the Skin, Eryspelas, White Swelings or Hip Diseases, Fever Sores, Ulcers, Rheumatism, Fistula, Kings Evil or Scrofula, Tuhercies in the Lungs, and General Derangement. Equally prompt and efficacious, in the cure of Liver Complaint, Dyspepsia and Cossiveness, are Beach's Hepatic of Liver Palls, Anti-Dyspeptic and Tonic Palls, and Anti-Bitions Palls, which act with amazing power upon the liver, removing obstructions from the bilary ducts, waking it up from a state of terpidity, and reducing subargement or swelling of this organ.

HOPE FOR THE CONSUMPTIVE.—Never despair while their remains the greatest remedy for Consumption which has ever yet been discovered—which has cured many cases pronounced hopeless. It has cured desperate cases, where all the most appalling symptoms existed: as terrible night sweats, heetic fever, tubercles, electation, distressing cough, frightful weaknessand emaciation, and great difficulty of breathing, with the expectoration or raising of large quantities of puralent matter.

For Coughs, Colds, Consumption, Spitting of Blood,

weaknessand conaciation, and great difficulty of oreatiing, with the expectoration or raising of large quantities of purulent matter.

For Coughs, Colds, Consumption, Splitting of Blood,
&c., there is nothing known which can begin to equal
Beach's Pulmonary Powder of Syrup It cleanses the
blood of the Consumptive Taint, promotes easy expectoration, removes tubercles from the lungs, heals ulcers, strengthens the general system, and thus arrests
fever and night sweats. If there is a medicine on this
earth which can cure the worst cases of consumption
in its last stages, this is pre-eminently the one. We
avow before the world, and defy contradiction, that its
power is unequalled, its efficacy irresistable, and its
success in the multitude of cures which it has effected
is without a parallel. This is no exaggention—it is
sober earnest, literal and indisputable truth, which we
can prove by a host of nadeniable facts.

For the cure of the Piles Bleeding Piles, Blind Piles,
or Piles in a state of Tumor, all remedies fail, in difficult cases, except Peach's Pile Electuary. This remedy
is the are at the root of the tree. It strikes at the cause
of all the difficulties which produce this most painful
and disagreeable discase. It is an internal remedy, eaany taken, producing an immediate effect and a thorough and unfailing cure.

Besides these, we have the following great remedies
for the diseases mentioned in connection with them:

The NERVOUS PILLS; for all kinds of nervous
disease; COUGH PILLS, for all kinds of nervous
disease; COUGH PILLS, for all violent colds, coughs,
